## Gleichen Fifth

### Calgary Fair Opens Tomorrow

The Calgary Industrial Exhibition of 1912 will commence tomorrow—Friday—at which Gleichen will be represented for as usual, Clark Brass, having secured a fine-fauned Clydesdale horses.

On Saturday, June 29th, the 5th in the year, the town number of horses and believed his brothers were doing the same, but said as he had sold all but one of his prize-winnings of last year, and was in the same stock this year he did not expect to have as many big prizes as in the year past. You can be sure that Gleichen would be well represented so far as prizes are concerned.

Dr. James Clark seen the same day said: "Yes, we are entering for the Calgary exposition as usual and will have a good display of our products. We have a lot of horses here the past year, but we still have a lot of good ones left, and will not feel bad about our entry. Our products will win great prizes, we fully expect they will and will be displayed at the fair in competition with the other farms."

Manitoba has a great display of cattle, the best in the field of cattle, variety, classes, beauty of sound exhibits, attractiveness of midway and grandstand specialties the exhibition of fair cattle is the best of any fair ever held in Western Canada. The grandstand attractions include the famous and famous aviator, who will make daily flights in his Curtiss seaplane the Alberta Bands, four trains of English and Canadian bands, clowns, an airship, fireworks of evenings. The stock market is the best in the west. The fine live stock of three provinces will be seen in the procession. Special attractions will be seen at the fair, the Alberta, Saskatchewan and Eastern British Columbia.

### Murphy Gets Four Years

Jas. P. Murphy appeared before Judge MacLean today last week and was sentenced to four years imprisonment in the Edmonton penitentiary. He was given two years for the first offense and two for the second. Bowlers will remember that last March he obtained a house at D. C. Lafferty's livery to be returned at the following day, he took the bridle and traps from G. F. Taylor's livery. He was sentenced to 4 years in the penitentiary for his conduct with Roy Wartmann, from whom he purchased another house, and gave a check for \$150, telling Wartmann he had a house to sell, a bunch of horses and would require his services when he returned to him. Wartmann sold the horses to Basano and sold the house to the Basano Horse Repository and took the livery. Corpse of Jas. P. Murphy was found buried and succeeded by wire in capturing Murphy just as he was about to leave the Bow Valley for the Port of Sack, Wartmann got back \$67 in cash and another \$14 refund on the railway ticket that Murphy had purchased.

### BOW VALLEY LEAGUE

Gleichen at Strathmore July 8 and 20. Gleichen at Basano July 1 and 22. Gleichen at Bow Valley July 27 and 28. Gleichen at Bow Valley July 11 and August 1. Basano at Gleichen July 4 and 25. Basano at Strathmore July 15. Games scheduled in July 1st and 2nd and 8th and 9th. All post office games to be played before August 14, 1912.

### Annual Exhibition, Friday and Saturday, Aug.

### Public Council Meeting July 5

The town Council has decided to hold a public meeting on Friday, July 5th, for the purpose of discussing the present trouble concerning the water and sewerage system and the option of the taxpayers to the town of extending the system. At the meeting the troubles with the engineering company are to be explained and the best method of the same.

The Call has the best of authority that four or five local men are now prepared to give their own notes in order to secure the money to extend the system and the option of the engineers to extend the system to the town when the engineers present their bill with the offer of this for the reason that by the time a by-law will be passed, read, advertised, voted upon and the loan negotiated it will be too late to extend the system. To have the work done before the time of the town at heart should not fail to attract the meeting.

### Gleichen's Bright Prospects

Just now there are many bright prospects for Gleichen. First and foremost, the crops of every description in this far-flung district never looked so good at this season of the year, and the reports of general prosperity are excellent.

Second, the C.P.R. has agreed to this fair-sized district to establish an experimental farm.

Third, and most important our community is working nicely, the miners are busy and the town is in a good condition.

Fourth, the town has been shown a gravity water works system that cannot be excelled on the prairie of the west.

Fifth, everyone is confident of the future prosperity of the district.

Sixth, drilling for natural gas will shortly be renewed.

Seventh, a strong company is planning to erect a big flour mill at Gleichen.

### TOWN COUNCIL

The Town fathers last evening had their regular weekly meeting but their record of even the previous weekly just four minutes. Now, that is real good work and the Call congratulates them in getting down to business at 8 A.M.—that's the record.

But, everyone is the question of the adjourned Court of Revision held up, and the town fathers are still in the dark.

That the Court of Revision will adjourn until June 25th, and 8 p.m. on the 27th, in the absence of Assessors Monday."

The secretary reported he had not yet heard from the C. P. R. regarding the removal of the cutouts at the station, he had secured two and a half tons of coal for the waterworks plant, and wrote the Canadian Lighting Co. as instructed.

A letter was read from A. Linday strongly objecting to the offensive odors from the cesspools and manholes the sewerage system and threatening action if some were not taken to remove the obnoxious smell.

That the public Works Committee interview Mr. Lee, re noxious insects in the town, and a public meeting to discuss with the ratcatchers or police or other official point to property owners their duties in this direction, and also to have them cut on the streets of the town.

The Mayor brought up the question of the removal of the obnoxious smell of holding, public meeting to discuss with the ratcatchers or police or other official point to property owners their duties in this direction, and also to have them cut on the streets of the town.

Mr. Lafferty brought up the question of the removal of the obnoxious smell of holding, public meeting to discuss with the ratcatchers or police or other official point to property owners their duties in this direction, and also to have them cut on the streets of the town.

That the secretary be instructed to write Mr. A. Linday to advise him of the severe septic and generally before adjournment and assured the Council the Provincial Health Officer would like to inspect the same at an early date."

The Palace Cafeteria Roehl's ice cream only, because it is the best.

### 30th and 31st

### Location of C.P.R. Demonstration Farms

The location of the twenty-five new demonstration farms which the Canadian Pacific will start in Alberta have been announced and the sites where the people most will be situated is announced soon. The districts in Alberta where these farms will be set up are Gleichen, Brooks, Kananaskis, St. Marys, Aix, Coronation and Sedgewick.

In the provinces to the east of Alberta the following farms will be located:

Saskatchewan — Alameda, Minto, Tanguay, Wingard, Lockwood, Imperial, Minto, More, Boundary and Thackeray.

Manitoba — Kirklees, Virden, Pipestone, Kildonan, St. Vital, Brandon and the best broken on these farms now and building is to start.

Third, and most important our community is working nicely, the miners are busy and the town is in a good condition.

Fourth, the town has been shown a gravity water works system that cannot be excelled on the prairie of the west.

Fifth, everyone is confident of the future prosperity of the district.

Sixth, drilling for natural gas will shortly be renewed.

Seventh, a strong company is planning to erect a big flour mill at Gleichen.

### 30th and 31st

### Calgary Industrial Exhibition

June 28th to July 5th, 1912

Freight paid on Alberta exhibits

Cash offered for prizes and purses \$42,000

\$13,000 Attraction Pro-  
gramme

including  
Honey Werd with a Cur-  
sion Aeroplane

### The Famous Navassar Ladies Military Band

Four East India Ele-  
phants and other fea-  
tures of merit

Exhibition Entries Close  
June 15th.

I. S. G. Van Wart, Pres.

Prize List and Entry Forms from  
E. L. Richardson, Mgr.,  
Victoria Park, Calgary.

C. H. McNaughton, manager of  
the Arctic Ice Co., and J. Watson of  
the Sprague Lumber Co., of Winni-  
peg, Manitoba, have been here for a  
number of days this week and shipped a  
fine car load of lumber yesterday to  
Calgary, with the help of Messrs. J. H. Scott, Jas. Young and N. W. McMillan.

What seems to a reporter Mr. McNaughton said he had picked up the best horses that could be found in the horse raising country and the best horses that Gleichen's reputation was as a horse raising country was all it had been represented.

That is the record of Gleichen, he said. I am here to see Gleichen grow as it is growing. Yet I fear the horse raiser will bring you and, if you will, I will bring you and we may split up. That is the greatest change in the world here for such friends as we are doing and using and using all of them.

"I really think you have got the finest horses here at the present time and I am here to help you to get it between here and Winnipeg. I never saw the like of it. That is the truth, but I forgot I was talking to a reporter."

### THE CANADIAN BANK OF COMMERCE

SIR EDMUND WALKER, C.W.O., LL.D., D.C.L., President  
ALEXANDER LAIRD  
General Manager JOHN AIRD  
Assistant General Manager

CAPITAL, \$15,000,000 REST, \$12,500,000

TOURISTS AND TRAVELLERS

The Canadian Bank of Commerce, by reason of its large number of branches in every Province of Canada, with direct representation in London, Eng., New York, San Francisco, Seattle, Portland, Ore., and St. John's, Nfld., with Agents and Correspondents in every city of the world, is in a position to give the travelling public, enabling them to obtain money in the simplest way at any point on the globe. It is a safe, sound, well-managed bank, and its name is well known and trusted throughout the world.

Cheques and Drafts on all the countries of the world, drawn in sterling, francs, marks, lire, kroner, etc., can be cashed or purchased at reasonable rates.

GLEICHEN BRANCH. J. CAMERON, Manager

### Your Son's Education

Probably you wish to send your son to an agricultural college. As it creates an interest in him, a desire to learn, it is a good investment. Make provision for his education by depositing a certain sum at regular intervals in a savings account for him. Discuss it with our farm manager.

Capital and Surplus  
\$6,800,000

Total Assets  
\$2,000,000

### THE TRADERS BANK

## SUMMER SKIN TROUBLES.

burning, blistering and irritation are the commonest forms of skin trouble. The heat of the sun does these very quickly. It works in two ways. As the body is heated, the skin's powers get to work and kill all the bacteria. This is good. But when the skin starts to kill the bacteria, it smarts and the pain. Then Zam-Buk keeps the heat away and the skin's natural power is built up. For sure, blistered feet, sunburned skin, red, blotchy spots, sore places due to perspiration, and all the other skin troubles. It also cures cuts, ulcers, abscesses, piles, and all inflamed and diseased conditions of the skin. Druggists and stores everywhere have Zam-Buk Soap also, 25¢ per tablet. All stores or Zam-Buk Co., Toronto.

## All Made Clear

A woman mislaid her China tankard, a mandarin's eight-tasseled cap, and her husband's eight wives. The Chinese ladies examined the tankard and said, "It is not broken, but her feet especially ached when she walked on it." "I will walk as run as well as a man," said the woman. "Yes, to be sure," said the tankard. "I am a man, and a woman, and a toot." "Yes." "Then you must be a tree, a mountain, a river, and a forest, because you wouldn't let a man beat you out of your tankard." "Indeed I wouldn't," the maid said. "The man who beat you out of your tankard is a thief, holding his head. Then the old lady said, 'I am a tree, a mountain, a river, and a forest; never have I been beaten out of my wife's tankard.'

INDIGESTION  
RIGHTLY CURED

## By Tonning up the Stomach to do the Work Nature Intends It Should

A man should not be negligent about a moment's delay in the body of its proper nourishment and the proper use of its energy. A common form of disorder is dyspepsy, to which most people are subject, and it is a common trouble. The very best medicine is to eat a hearty meal, and then to rest. "Yes." "Then you must be a tree, a mountain, a river, and a forest, because you wouldn't let a man beat you out of your tankard."

A man who was successful and lucky in business who was disengaged by the very early return of his wife, and was unsuccessful post Thomson, was compelled to return to his wife. For Thomson was one of the most successful men in the business and seduced Rose before noon.

Mr. Thompson, who was engaged to give us one of our finest descriptions of his life, was unable to do so.

He was a man who ate the sum-

mer off the prairies in the fall, with a hearty appetite, and who even late into his life, had a taste for food.

He was a man who had a taste for food.

He was a man who had a taste for food.

## Get Your Canadian Home From the Canadian Pacific

### WESTERN CANADA'S DAY

This has been referred to as Canada's Century. In Western Canada we use no such general term—this is Western Canada's century, decade, year, month, week and day. With the passing of each twenty-four hour period, new business blocks and homes are under construction, new lines of railway have pushed on a little further, and each day is brighter than the one preceding.

There is no safer or surer investment today than the farm lands in Manitoba, Saskatchewan and Alberta. If you wish your dollars to work every Western Canadian Day, call on or address

## PRIZE WINNING B. C. FRUIT LANDS

**O**WN a few acre fruit and pasture tract (or more) in British Columbia, and be independent for life. \$300 down and \$10 a month pays for it. No interest and payments extended in case of sickness. From \$50 to \$1,500 per acre realized by ranchers in this famous prize-winning district, the Main Thompson Lake. Ideal climatic conditions, no rains in seasons as on the coast; no dry seasons as in the interior. No frost in the fruiting season. No blight or insect damage reported. The main Lake never freezes over and the boats run the year around—no reports of other districts. Seven years in finding this ideal spot. I have taught myself to sell my fruit—ranch and market—advertising in the newspapers and the agricultural journals. I have even made the excuse that he had learned all the ways of Gleichenites, but truthfully—especially concerning the agriculturalists on the land he owned.

The first business after the opening of the fruit market is the preparation for the fifth annual exhibition, which was taken up and it was decided to at once seek the committees to take charge of the work. The first year it was acknowledged that the time was getting short in which to complete the work of advertising the exhibition properly.

It is said that President Young succeeded in a very short time in getting this work transacted, which resulted as follows:

J. Clark, Jr.—Registered, grades and general purpose Cycles, Bicycles, etc.—Patterson, B.C. and Salt folk, Belgians and Shires.

W. J. Bore—Thorough Bred and all Light Horses.

F. Dau—Swine.

W. H. James—Dogs.

D. Wilson—Poultry.

E. Grisbach—Vegetables.

Roy M. Allen—Dairy.

J. C. Buckley—Grain and Grasses.

W. E. Williams—Agricultural.

C. J. Clark—Cattle.

A. D. Shore—Ladies Work.

Meers, Anthony, Bore, Legget, Beach, Miller, McMillan, Wade, McLean, Brant and Lonsdale.

In view of the fact that there had been some trouble with the distribution of special prizes in previous years, the committee decided that special prizes must be handled over to the secretary on the evening previous to the opening of the exhibition.

This year local men are to be allowed one space free of charge, provided they are willing to pay the rent they apply by August 1st, but residents outside of town will be charged \$5 per day for each space, and \$10 per day for each space if the rent is not paid.

Refereeing contests will be held over a fee of \$10 per day.

It was agreed that the president and secretary shall supervise all the contests and go along the same lines as last year.

Hen德erson is again to be general manager of all exhibitions and the new committee will be one man as manager of all the races.

A motion was passed that all the committees be required to meet the next meeting to be held on June 20th.

The question of holding a tournament in town was voted in only for two days, and the committee decided to postpone the question of offering a big prize draw for contestants.

It was decided to appoint a strong committee to take up the matter and report at the next meeting.

Mr. Meers, L. G. Gillies, Blackham, Hall, McCaughan and Yates.

Those adjoining all agreed to do their utmost to make the fifth exhibition the best of all the previous successes.

That the west next season may find a market for its black gold as serious as that which prevailed last season is the opinion of Hon.

Duncan Marshall, Minister of Agriculture, who said that the oil produced by the oil wells in the field in the west the year will be quite as great as it was last year.

There are, he says, many more wells being drilled to be brought into the west, and he considers that the handling of it will take up the greater part of the market.

He said that the entire oil field of the west will be utilized throughout the year, and that the market at the end of last year and on this account the repairing of rolling stock for the next season will be a problem of great difficulty.

As far as the oil men are concerned they are largely authorized jointly to sign temporary receipts for payments in oil, and no card for such payment of delivery of regular certificates.

PRACTICAL DEMONSTRATION of the oil burner, as well as responsibility of management should be invested in one man, who shall be glad to furnish information to this end.

INVESTIGATE AND ACT WITHOUT DELAY, as this company, though in its infancy has a practically unlimited field, and price will be advanced considerably after a limited amount of stock has been sold.

As far as the oil men are concerned they are largely authorized jointly to sign temporary receipts for payments in oil, and no card for such payment of delivery of regular certificates.

## Preparing for Gleichen Exhibition

There was a good attendance at the directors meeting of the Gleichen District Agricultural Society.

This evening, and it was five minutes after eight when the secretary reported that the gates were not yet open, it was 5:30 and it was 5:30 minutes later before the gates were open.

Call man arrived, and—well—he was called to task for being late.

He said he had every excuse to make the excuse that he had learned all the ways of Gleichenites, but truthfully—especially concerning the agriculturalists on the land he owned.

The first business after the opening of the exhibition was the preparation for the fifth annual exhibition, which was taken up and it was decided to at once seek the committees to take charge of the work.

It was acknowledged that the time was getting short in which to complete the work of advertising the exhibition properly.

It is said that President Young succeeded in a very short time in getting this work transacted, which resulted as follows:

J. Clark, Jr.—Registered, grades and general purpose Cycles, Bicycles, etc.—Patterson, B.C. and Salt folk, Belgians and Shires.

W. J. Bore—Thorough Bred and all Light Horses.

F. Dau—Swine.

W. H. James—Dogs.

D. Wilson—Poultry.

E. Grisbach—Vegetables.

Roy M. Allen—Dairy.

J. C. Buckley—Grain and Grasses.

W. E. Williams—Agricultural.

C. J. Clark—Cattle.

A. D. Shore—Ladies Work.

Meers, Anthony, Bore, Legget, Beach, Miller, McMillan, Wade, McLean, Brant and Lonsdale.

In view of the fact that there had been some trouble with the distribution of special prizes in previous years, the committee decided that special prizes must be handled over to the secretary on the evening previous to the opening of the exhibition.

This year local men are to be allowed one space free of charge, provided they apply by August 1st, but residents outside of town will be charged \$5 per day for each space, and \$10 per day for each space if the rent is not paid.

Refereeing contests will be held over a fee of \$10 per day.

It was agreed that the president and secretary shall supervise all the contests and go along the same lines as last year.

Hen德erson is again to be general manager of all exhibitions and the new committee will be one man as manager of all the races.

A motion was passed that all the committees be required to meet the next meeting to be held on June 20th.

The question of holding a tournament in town was voted in only for two days, and the committee decided to postpone the question of offering a big prize draw for contestants.

It was decided to appoint a strong committee to take up the matter and report at the next meeting.

Mr. Meers, L. G. Gillies, Blackham, Hall, McCaughan and Yates.

Those adjoining all agreed to do their utmost to make the fifth exhibition the best of all the previous successes.

That the west next season may find a market for its black gold as serious as that which prevailed

last season is the opinion of Hon.

Duncan Marshall, Minister of Agriculture.

He said that the oil produced by the oil wells in the field in the west the year will be quite as great as it was last year.

There are, he says, many more wells being drilled to be brought into the west, and he considers that the handling of it will take up the greater part of the market.

## HUGE EQUIPMENT PROGRAMME PLANNED BY CANADIAN ROADS

Railways Have Made Large Appropriations for New Equipment, but Manufacturers Find Orders Exceed the Capacity of Their Plants.

Ottawa—Reports made to the board of railway commissioners of Canada by the Canadian Pacific, Canadian National and the Great Northern Railways of new equipment under construction disclose a huge equipment programme. The manufacturers of heavy equipment for which appropriations have been made by the railways are of difficulty in finding manufacturers, who are willing to take on the construction of new equipment in the near future. All of the roads represent that they are in the market for much more equipment than they have at the figures here given, but that the Canadian roads are not in a position to bring their orders, which exceed their capacity, and that should be United States manufacturers.

It is estimated that \$100,000,000 in new equipment, but cannot be manufactured who will take our money, and the Canadian Pacific is at the head of the Canadian pace. It is estimated that the Canadian roads has the following under construction

1,500 box cars, of which 1,000 are being built at its own shops in Montreal, 511 flat cars and 41 locomotives. This road also represents a large number of rolling stock improvements in the west now under construction. It is estimated that 250 refrigerator cars by the same manufacturer will be built at its own Western Car and Foundry Co. at Montreal, 200 refrigerator cars at Western Car and Foundry Co. at Detroit, 100 refrigerator cars at the Pressed Steel Car and Foundry Co. at Detroit, 100 refrigerator cars at Canadian Car and Foundry Co. at Detroit, 250 refrigerator cars by the same manufacturer, 100 refrigerator cars at 16 passenger locomotives at the Great Northern Railway Company, 100 refrigerator cars at 25 locomotives at the Baldwin Locomotive Works, and 1,000 box, 250 refrigerator cars and 100 flat cars under construction by the Haskell and Harcourt.

The Canadian Northern represents 1,000 box cars, of which 650 are being built in Canada.

1,500 box cars, of which 1,000 are being built at its own shops in Montreal, 511 flat cars and 41 locomotives. This road also represents a large number of rolling stock improvements in the west now under construction. It is estimated that 250 steel stock cars, of which 100 have been received from the numerous manufacturers, it is estimated that 1,000 more will be received by the end of June.

have been ordered from Hiram's: 244

### STRATHCONA NOT TO RETIRE

Age, But Infirm, High Commissioner Off to Re-Election on H.B.S.

London—Lord Strathcona, one of the members of the Hudson Bay Company, who retired in 1920, year, there was a speculation in some quarters that he might wish to leave the service of the company. The duties of government to some young, ever, that yielding to the desire of the company to re-elect him to the post of re-election. At the forthcoming meeting.

Lord Strathcona, who also retires will offer himself for re-election, with the Harrods Stores of Mr. Mc. B. Strathcona is managing director.

There is no lack of interest in the re-election of Strathcona, a member of the Hudson Bay Company, at W�-

Sir William Whitley, George, Galt, after much consideration, accepted service as the Canadian commissioner.

In order to retain the trade, the Hudson Bay Company is continuing its policy of expansion in the Athabasca, and the Slave River.

The company has acquired a number of small companies, and a ship company for Nibah and Labrador.

The Crown authorities will have to take into account the cost of providing means of additional capital expenditure on buildings at Calgary, Vernon, Kamloops, and Yorkton.

### LEAVING FOR HODSON BAY

Joseph Tyrell and Stewart to Report New Data

Toronto—With a view of locating a harbor for Ontario at Port Nelson, Prof. L. B. Stewart, who will act as surveyor for the Canadian government, has endorsed asking the prime minister to establish a committee of inquiry to the ten miles of shore grant the project will be necessary to survey the entire estuary, which will be the main port for the Great Lakes, and the St. Lawrence River.

The company has acquired a number of small companies, and a ship company for Nibah and Labrador.

The Crown authorities will have to take into account the cost of providing means of additional capital expenditure on buildings at Calgary, Vernon, Kamloops, and Yorkton.

### LEAVING FOR HODSON BAY

Alberta, Saskatchewan and Manitoba.

Winnipeg—At the Metalist conference, which closed here, a resolution was endorsed asking the prime minister to establish a committee of inquiry at an early date and go into the whole subject of establishing a port in the estuary, which the new establishment, Toronto, will be the main port for the Great Lakes.

It is understood that both Saskatchewan and Alberta have made similar requests.

The conference, which has just closed, was a very marked and favorable view of the death of Principal Spencer Legge.

Winnipeg—The coronial and business-like throughout.

Vancouver's Population

Vancouver, B.C.—Greater Vancouver has a population of 1,000,000 and New Westminster, a population of 100,000, 175,442, according to figures which have been made available by the Henderson Publishing Company.

Would Settle War

London—It has agreed to a conference with Turkey to settle the dispute of the war with Turkey accord- ing to a report in the London Express from Ankara. If Turkey and Britain will be speedily arranged,

they will have this session.

WILL Build Concrete Pier

Vancouver, B.C.—The Canadian Pacific is to build a concrete pier in the centre of its pier at the head of the pier in the neighbourhood of Victoria.

To Represent Ontario in the West

London—It has agreed to a conference with Turkey to settle the dispute of the war with Turkey accord- ing to a report in the London Express from Ankara. If Turkey and Britain will be speedily arranged,

they will have this session.

WILL Assist Settlers

From Fort William to Prince Rupert

Montreal—E. J. Chamberlain, president of the Great Trunk Pacific and Grand Trunk railways will start work on the construction of 200 locomotives and 55 switch locomotives.

The Grand Trunk, reported that it has 1,000 locomotives and 1,000 cars built by the Canadian Car and Foundry Co. at Montreal, 200 refrigerator cars at Western Car and Foundry Co. at Detroit, 100 flat cars at the Pressed Steel Car and Foundry Co. at Detroit, 250 refrigerator cars by the same manufacturer, 100 flat cars at Canadian Car and Foundry Co. at Detroit, 100 passenger locomotives at the Great Northern Railway Company, 100 refrigerator cars at 25 locomotives at the Baldwin Locomotive Works, and 1,000 box, 250 refrigerator cars and 100 flat cars under construction by the Haskell and Harcourt.
